

DS 1	Regional Elbe/Hamburg	46
DS 2	Po Delta and the Venice Lagoon	47
DS 3	Nile Delta: need for innovation in water demand management	48
DS 4	Thames Estuary	49
DS 5	California	50
DS 6	Vietnam / Mekong Delta	51
DS 7	Rhine Delta	52
DS 8	Bangladesh	53
DS 9	The lowland deltas of Indonesia	54
DP GV 3.4	Transitions and the role of innovations	55
DP FR 4.3	Strengthening resilience of delta communities	56
DP RE 5.5	Deltas in Europe: opportunities for research and policy collaboration	57
DP C 6.2	Circle	58
DD 10.1	Knowledge for Climate	58
DD 1.2	Sea level rise, surge and coastal processes (part 2)	59
DD 1.3	Precipitation, discharge and flooding (part 1)	59
DD 1.5	Adaptation, risk, vulnerability	60
DD 2.2	Fresh water supply and salinisation in developing countries	60
DD 3.2	Impact of climate change on estuaries round the world (part II)	61
DD 4.2	Flood risks and water management in the urban environment	62
DD 5.2	Generating and evaluating potential solutions	62
DD 6.2	Regional strategies of climate adaptation: concepts and Dutch examples	63
DD 7.3	Methods – CBA/MCA	64
DD 7.4	Methods – scenarios	64
DD 9.2	Managing climate extremes in practice	65
DP FE 1.3	Economic concepts for socio-economic vitality and biodiversity	66
DP UP 2.1	Adapting to urban heat island effects	67
DP UP 2.3a	Innovations in water infrastructure and urban design (part 1)	67
DP UP 2.3b	Innovations in Urban Infrastructure	69
DP UP 2.4	Transboundary Planning for ports and waterways	70
DP UP 2.6	Developing Delta Cities, Strategies for climate change in developing countries	70
DP GV 3.5	Climate adaptation: conclusions, recommendations and applications	71
DP FR 4.1	Smart flood control in deltas	71
DP FR 4.6	The need for flexibility in engineering systems and processes to deal with climate change	68
DP RE 5.1	Guidance on water related adaptation	72
Delta Alliance Cooperation	Showcasing Inter-Delta Cooperation	75
Delta Competition 2010	Awards	75
Plenary DA Launch		76
F 2	Film programme	78
